**PINTEC ANNOUNCES FIRST NINE MONTHS 2019 UNAUDITED FINANCIAL RESULTS**

BEIJING, Dec. 12, 2019 (GLOBE NEWSWIRE) — Pintec Technology Holdings Limited (NASDAQ: PT) (“PINTEC” or the “Company”), a leading independent technology platform enabling financial services in China, today announced its unaudited financial results for the nine months ended September 30, 2019.

**Financial Highlights For The Nine Months Ended September 30, 2019**

- Total revenues decreased by 7.3% to RMB776.3 million (US\$108.6 million) in the first nine months of 2019 from RMB837.4 million in the same period of 2018.
- Gross profit increased by 26.3% to RMB473.7 million (US\$66.3 million) in the first nine months of 2019 from RMB374.9 million in the same period of 2018. Gross margin increased to 61.0% from 44.8% in the same period of 2018.
- Operating profit increased by 52.1% to RMB131.1 million (US\$18.3 million) in the first nine months of 2019 from RMB86.2 million in the same period of 2018.
- Net income increased by 631% to RMB115.2 million (US\$16.1million) in the first nine months of 2019 from RMB15.8 million in the same period of 2018.
- Adjusted net income<sup>1</sup> increased by 225% to RMB148.1 million (US\$20.7 million) in the first nine months of 2019 from RMB45.6 million in the same period of 2018.

**Operating Highlights For The Nine Months Ended September 30, 2019**

- Total loans facilitated decreased by 18.0% to RMB9.5 billion (US\$1.3 billion) in the first nine months of 2019 from RMB11.6 billion in the same period of 2018.
- Loan outstanding balance decreased by 29.6% to RMB4.5 billion (US\$0.6 billion) as of September 30, 2019 from RMB6.4 billion as of September 30, 2018.
- The following table provides delinquency rates for all loans facilitated by the Company as of the dates indicated:

<sup>1</sup> Adjusted net income/(loss) is a non-GAAP financial measure, representing net income/(loss) before share-based compensation expenses. For more information on non-GAAP financial measures, please see the section of “Use of Non-GAAP Financial Measures Statement” and the tables captioned “Unaudited Reconciliations of GAAP and Non-GAAP Results” set forth at the end of this release.

Mr. Jun Dong, acting Chief Executive Officer of PINTEC, commented, “We continued to develop our business during the first nine months of 2019 in order to overcome both macro and regulatory headwinds. Notably, as we further diversified our funding sources through additional partnerships, we also leveraged our state-of-the-art technology and leading service capabilities to expand our collaborations with existing partners. At the same time, we also focused on further refining our product offerings to bolster our leadership in both the mobile device and online travel markets. Our successful cooperation with leaders in these verticals not only demonstrates our ability to serve a broader demographic of users but also showcases the expansion of our POS installment loan services. Going forward, we are confident that our ongoing diversification of our funding sources, refinement of our product mix, and improvement in our operations will enable us to consistently expand our business while creating shareholder value despite a challenging macro environment.”

Mr. Steven Sim, Chief Financial Officer of PINTEC, stated, “The recent market and regulatory uncertainties have impacted our loan origination volume which resulted in the decline of our total revenues during the first nine months of 2019. Nonetheless, we further optimized our cost structures through the successful implementation of multiple cost control measures. As a result of our improved operating efficiency, we continued to expand our profitability in the first nine months of 2019. In addition to these improvements, we also differentiated our service models, optimized our product offerings, and strengthened our capital structure during the period. Going forward, we will continue to enhance our technical services and risk management capabilities to bolster our profitability. We are confident that these efforts will enable us to enter into a new growth cycle.”

## **Nine Months 2019 Financial Results**

### ***Total Revenues***

Total revenues decreased by 7.3% to RMB776.3million (US\$108.6 million) in the first nine months of 2019 from RMB837.4 million in the same period of 2018.

- Revenues from technical service fees increased by 9.8% to RMB643.3 million (US\$90.0 million) in the first nine months of 2019 from RMB586.0 million in the same period of 2018, primarily as a result of guarantee provided under the new business arrangement between the Company and the JIMU Group in current period.

- Revenues from installment service fees decreased by 52.7% to RMB114.2 million (US\$16.0 million) in the first nine months of 2019 from RMB241.3 million in the same period of 2018. The decline was due to the reduction in the Company's on-book installment loans volume, which is in line with the Company's strategy of improving portfolio structure.
- Revenues from wealth management service fees increased by 86.9% to RMB18.9 million (US\$2.6 million) in the first nine months of 2019 from RMB10.1 million in the same period of 2018. The increase was primarily attributable to the modest development of the Company's insurance solution offerings.

#### ***Cost of Revenues***

Cost of revenues decreased by 34.6% to RMB302.6 million (US\$42.3 million) in the first nine months of 2019 from RMB462.5 million in the same period of 2018. As a percentage of total revenues, cost of revenues decreased to 39.0% in the first nine months of 2019 from 55.2% in the same period of 2018. The reduction was due to the lower volume of the Company's on-book loan business, which decreased funding costs and provision for credit losses. At the same time, the Company's expanding business partnerships and increasing market recognition enabled it to further reduce customer acquisition costs. As a result, customer acquisition costs related to origination and servicing costs decreased by 19.1% year over year to RMB121.7 million (US\$17.0 million) in the first nine months of 2019.

#### ***Gross Profit***

Gross profit increased by 26.3% to RMB473.7 million (US\$66.3 million) in the first nine months of 2019 from RMB374.9 million in the same period of 2018. Gross margin expanded to 61.0% in the first nine months of 2019 from 44.8% in the same period of 2018. The improvement in gross margin was primarily driven by the lower volume of the Company's on-book loan business, which led to lower funding costs and lower provision for credit losses in the first nine months of 2019.

#### ***Operating Expenses***

Total operating expenses increased by 18.6% to RMB342.5 million (US\$47.9 million) in the first nine months of 2019 from RMB288.7 million in the same period of 2018.

- Sales and marketing expenses decreased by 14.2% to RMB59.8 million (US\$8.4 million) in the first nine months of 2019 from RMB69.7 million in the same period of 2018. The reduction was the result of the Company's ongoing efforts to refine its product matrix and wind down its off-line personal installment loan business, the latter of which has been ongoing since the end of 2018. As part of this effort, the Company dissolved its offline direct marketing divisions during the first nine months of 2019 to both improve its marketing efficiency and significantly reduce its offline marketing and promotion expenses.
- Research and development expenses increased by 2.9% to RMB61.2 million (US\$8.6 million) in the first nine months of 2019 from RMB59.5 million in the same period of 2018.
- General and administrative expenses increased by 38.8% to RMB221.6 million (US\$31.0 million) in the first nine months of 2019 from RMB159.6 million in the same period of 2018. The increase was primarily due to higher bad debt provision and depreciation and amortization of intangible assets, as well as professional service fees associated with being a public company.

#### ***Operating Profit/Loss***

Operating profit increased by 52.1% to RMB131.1 (US\$18.3 million) in the first nine months of 2019 from RMB86.2 million in the same period of 2018.

#### ***Net Income***

Net income increased by 631% to RMB115.2 million (US\$16.1 million) in the first nine months of 2019 from RMB15.8 million in the same period of 2018, primarily driven by: 1) improved cost structures and marketing efficiency; 2) accumulated interest income of RMB36.2 million (US\$5.1 million) from a loan to the JIMU Group; and 3) deferred income tax benefits of RMB55.7 million (US\$7.8 million) recognized in 2019 but not previously available in 2018.

Adjusted net income increased by 225% to RMB148.1 million (US\$20.7 million) in the first nine months of 2019 from RMB45.6 million in the same period of 2018.

Net income attributable to ordinary shareholders was RMB115.2 million (US\$16.1 million) in the first nine months of 2019 compared to a loss of RMB51.6 million in the same period of 2018.

### ***Net Income per Share***

Basic and diluted net income per share were RMB0.42 (US\$0.06) and RMB0.38 (US\$0.05), respectively, in the first nine months of 2019. Basic and diluted net income per American Depositary Share (“ADS”) were RMB2.91 (US\$0.41) and RMB2.67 (US\$0.37), respectively, in the first nine months of 2019. Each ADS represents seven of the Company’s Class A ordinary share.

Adjusted basic and diluted net income per share were RMB0.53 (US\$0.07) and RMB0.49 (US\$0.07), respectively, in the first nine months of 2019. Adjusted basic and diluted net income per American Depositary Share (“ADS”) were RMB3.74 (US\$0.52) and RMB3.43 (US\$0.48), respectively, in the first nine months of 2019.

### ***Balance Sheet***

The Company had combined cash and cash equivalents and restricted cash of RMB608.2 million (US\$85.1 million) as of September 30, 2019, compared to RMB710.0 million as of December 31, 2018.

The Company’s total net financing receivables, including short-term and long-term, declined by 66.1% to RMB261.9 million (US\$36.6 million) as of September 30, 2019, from RMB772.1 million as of December 31, 2018, mainly due to the lower volume of the Company’s on-book loan business.

### ***Share Repurchase Program***

The board of directors of the Company approved a share repurchase program whereby the Company is authorized to repurchase its own Class A ordinary shares in the form of ADSs with an aggregate value up to US\$10 million during the next twelve-month period. The proposed share repurchase may be executed on the open market at prevailing market prices, depending on a number of factors, including but not limited to share price, trading volume, and general market conditions, as well as the Company’s working capital requirements, general business conditions and other factors, subject to the applicable rules of Rule 10b5-1 and/or Rule 10b-18 under the Securities Exchange Act of 1934, as amended. PINTEC plans to fund the repurchases out of its existing cash balance or future cash provided by operating activities.

The Company’s Interim Financial Statements are prepared and presented in accordance with U.S. GAAP. However, the Interim Financial Statements have not been audited or reviewed by the Company’s independent registered accounting firm.

**Conference Call Information**

**Extended Transition Period**

Management has elected to use the extended transition period for complying with any new or revised financial accounting standards and will adopt ASC 606 for the annual period beginning on January 1, 2019, and for interim periods one year later than annual adoption using the modified retrospective approach, in which case the cumulative effect of applying the standard would be recognized at the date of initial application. The Company also considers there will have a material impact to the beginning balance of retained earnings. The Company was applying ASC 605 for the purpose of revenue recognition and disclosure for the interim financial statements for the nine months ended September 30, 2019 present hereof.

## **Use of Non-GAAP Financial Measures**

In evaluating its business, the Company considers and uses adjusted net income/loss as a supplemental measure to review and assess its operating performance. The presentation of this non-GAAP financial measure is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. The Company defines adjusted net income/loss as net income/loss excluding share-based compensation expenses.

The Company believes that this non-GAAP financial measure can help management evaluate the Company's operating performance and formulate business plans. Adjusted net income/loss enables management to assess operating results without considering the impact of share-based compensation expenses. The Company also believes that this non-GAAP financial measure provides useful information about its operating results, enhance the overall understanding of its past performance and future prospects and allows for greater visibility with respect to key metrics used by management in their financial and operational decision-making.

This non-GAAP financial measure is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. This non-GAAP financial measure has limitations as an analytical tool. One of the key limitations of using adjusted net income/loss is that it does not reflect all items of income and expenses that affect the Company's operations. The company will continue to incur share-based compensation expenses in its business, which are reflected in the presentation of its adjusted net income/loss. Further, this non-GAAP financial measure may differ from non-GAAP financial information used by other companies, including peer companies, and therefore its comparability may be limited.

The Company compensates for these limitations by reconciling this non-GAAP financial measure to the most directly comparable U.S. GAAP financial measure, net income/loss, which should be considered when evaluating the Company's performance. The Company encourages you to review its financial information in its entirety and not rely on a single financial measure.

## **Exchange Rate**

This announcement contains translations of certain RMB amounts into U.S. dollars ("USD") at specified rates solely for the convenience of the reader. Unless otherwise stated, all translations from RMB to USD were made at the rate of RMB7.1477 to US\$1.00, the noon buying rate in effect on September 30, 2019, in the H.10 statistical release of the Federal Reserve Board. The Company makes no representation that the RMB or USD amounts referred to could be converted into USD or RMB, as the case may be, at any particular rate or at all. For analytical presentation, all percentages are calculated using the numbers presented in the financial statements contained in this earnings release.

## Safe Harbor Statement

This press release contains forward-looking statements. These statements constitute “forward-looking” statements within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as “will,” “expects,” “anticipates,” “future,” “intends,” “plans,” “believes,” “estimates,” “target,” “confident” and similar statements. Among other things, the quotations from management in this announcement, as well as PINTEC’s strategic and operational plans, contain forward-looking statements. PINTEC may also make written or oral forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission, in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Such statements are based upon management’s current expectations and current market and operating conditions, and relate to events that involve known or unknown risks, uncertainties and other factors, all of which are difficult to predict and many of which are beyond the Company’s control. Forward-looking statements involve inherent risks, uncertainties and other factors that could cause actual results to differ materially from those contained in any such statements. Potential risks and uncertainties include, but are not limited to, the Company’s limited operating history, regulatory uncertainties relating to online consumer finance in China, the Company’s reliance on Jimu Group for a significant portion of its funding and the need to further diversify its financial partners, the Company’s reliance on a limited number of business partners, the impact of current or future PRC laws or regulations on wealth management financial products, publicity regarding the consumer finance industry and the evolving regulatory environment governing this industry in China, and the Company’s ability to meet the standards necessary to maintain the listing of its ADSs on the Nasdaq Global Market, including its ability to cure any non-compliance with Nasdaq’s continued listing criteria. Further information regarding these and other risks, uncertainties or factors is included in the Company’s filings with the U.S. Securities and Exchange Commission. All information provided in this press release is as of the date of this press release, and the Company does not undertake any obligation to update any forward-looking statement as a result of new information, future events or otherwise, except as required under applicable law.
